

JOIN BUILDING BRIDGES FOR PUBLIC FEEDBACK SESSIONS IN JANUARY!

At our diocesan convention, our Building Bridges Steering Committee offered an extended report about their work over the last several years: what they've done, what they've heard, what they've learned, and – based on those things – what this all tells us about opportunities present for us as Episcopalians in this place. Their report, titled “Better Together” articulates the “why” of their recommendation to move forward seeking “juncture” – the creation of a new diocese out of our combined body.

We've been working on draft recommendations around canons and other areas of structure to present in full to the pre-convention meetings and Special Convention of the dioceses, however before we finalize them, we need your input and feedback on several areas of recommendation: apportionment, regions/collaboratives, the make up of diocesan councils and standing committees, etc.

During these upcoming Feedback Sessions, our committee will walk participants through these recommendations, identifying what the current canons of each our dioceses say, what the committee recommends for a new diocese and why. Your input will directly influence the final, content of the “Agreement of Union” as it will be submitted to the Special Joint Convention and this critical step in developing our canons and structures.

We need your voice on this – yes, yours – to present the best of our collective wisdom, expertise, and experience. Please join us for one of four upcoming online and in-person Feedback Sessions for laity and clergy. Your participation is essential to this process!

- Saturday, January 20 from 2-4pm at St. David's, Lansing*
- Sunday, January 21 from 1-3pm on Zoom
- Thursday, January 25 from 6-8pm on Zoom
- Saturday, January 27 from 2-4pm at St. Francis, Grayling*

**In the event of dangerous weather, our in-person gatherings will transition to Zoom and registrants will be notified.*
